MEHARI

- Decolan polypropylene, machine-made in Belgium
- Modern designs ranging from geometric patterns, to abstract, to Moroccan, to an overlap of all three
- The polypropylene pile is plush, giving it a denseness and thickness that borders on a shag-like quality
- The wide color-palette, ranging from neutral greys and beiges to the primary colors of red, yellow, and blue, allows Mehari to complement various color schemes
- The pile is not only dense, but also shed-free, stain-resistant, and durable

* Select designs available in Roll Runner – if available, indicated by stating as such above the rectangle image, alongside the design-color #
