*Effortlessly Stylish with
Universal Appeal*

At Karndean, we see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

Designed for You

Every one of our floors is unique to us, having been lovingly created by our in-house team. Our product designers select natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs.

Working with these products, they apply different techniques such as staining, brushing and oiling to create the perfect look and feel, and bringing you a simply beautiful floor.

GLUEDOWN
RIGID CORE

Knight Tile is our most versatile range of products, offering a diverse mix of wood species and natural stones. This range has a look for everyone, regardless of your room size or interior style.

Choose the format that fits your needs in a color that suits your décor. For example, you can enjoy the designability of gluedown on the ground level and the acoustic properties of rigid core in upper levels of your home.

Gluedown

Gluedown provides peace of mind that the product will be permanently adhered to your subfloor. This format gives you various lay patterns to choose from, as each piece is individually installed.

In addition, this format allows you to personalize your floor; choose the direction, create a pattern, or use design strips to create an inlay border or shiplap effect.

No expansion gap required

Individually replaceable

Suitable for any budget

Personalize with design strips

Quick and easy to install

Installs over existing hard floors

Hides subfloor imperfections

Reduces noise transfer

Rigid Core

Rigid core is a type of floating floor that clicks and locks into place, no adhesive necessary. This format can be floated directly over most existing hard floors, perfect for a quick project.

This format is our quietest to walk on, ideal for upstairs rooms in the home where you wish to minimize noise transfer to rooms below.

Color & Pattern Reproduction

All our products are inspired by things we have seen in nature. Just as variation in both color and detail are part of the beauty of nature, so too are some of our designs. This means that with some of our products you will see natural variation when your floor is laid.

We are continually developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice.
